By Associated Press.  
GUTHRIE, Okla., June 14.—Developments in the capital removal fight became more acute today with the return here of practically all the state officials save Governor Haskell and Secretary of State Cross. The officials came back for argument on demurrer to a suit in the district court to enjoin the removal of the capital. Guards have been placed about the Guthrie state house to prevent the removal of records and other state property.

The purchasers of Johnson's share to the pictures was the Vitagraph Company of America, represented by William Rock of New York. Rickard and Gleason have already agreed to sell their share for \$50,000 as soon as Jeffries signs an agreement to let his third go for the same amount. **CHANGE IN OVERLAND LIMITED TRAIN**  
The new summer time card of the Southern Pacific went into effect yesterday. The only change is the running time of the Overland Limited No. 1 westbound, which instead of leaving Reno at 8:10 a. m. leaves at 6:25, arriving at San Francisco two hours earlier than formerly. The new time table designates what was formerly called the China and Japan fast mail as the Atlantic express going east and the Pacific express going west. This makes two trains of the same name in their direction daily.

## RAILROADS WILL TRY TO GET EVEN WITH GOVERNMENT

By Associated Press.  
ST. PAUL, Minn., June 14.—The Pioneer Press tomorrow will say a policy of retrenchment is threatened by the railroads because of the federal activity in preventing the increase of freight rates from being put in force, but that the plan is not confined to this part of the country. So far this meant the laying off of about 10,000 laborers in the northwest. Orders have been received from headquarters to practically stop all the new construction work and plans for proposed extensions are temporarily dropped. President Howard Elliott of the Northern Pacific in a statement this afternoon said the reason of the action of the railroads was caused by the increase in taxes, and increases in prices of labor and material.

## SAYS PINCHOT IS OPPOSED TO PROSPECTORS

Senator Heyburn Informs Senate of His Opinion on Bill Calling for Public Land Withdrawal.

By Associated Press.  
WASHINGTON, June 14.—In the course of his speech in the senate today on the public land withdrawal bill, Heyburn referred to Pinchot as "an apostle of fallacy, theory and ignorance. In outlining the pending bill, Heyburn declared its purpose to be for the withdrawal of all public lands so as to leave them open only to prospectors and miners, which Pinchot was opposing. In declaring that the former forester had been in Europe imbibing foreign information and "doing some other things we know less about," he said the government experts had never found a mine. The consequence forester's policy would be the prevention of the extension of mining in the United States. The result would be, he contended, that in another generation the present mines would be worked out and there would be no more activity in that direction. This, he said, would be inevitable as a result of following "this censor of the morals and manners of the people." Conservation, Heyburn said, should begin at home, and he advises the national government to give its attention to water power possibilities near centers of population where they could be made available.

## FIGHTER GOES TO MAT FOR COUNT IN A QUEER MANNER

Billy Papke Knocks Out Al Goodale in the Second Round of a Scheduled Ten-Round Bout.

By Associated Press.  
KANSAS CITY, June 14.—Billy Papke defeated Al Goodale in the second round of a scheduled ten round bout tonight. Whether Papke knocked out Goodale will probably never be known. Goodale says he was out. Referee Leo Shaw was not satisfied with Goodale's showing and disqualified him. The end came one minute and twenty-two seconds after the beginning of the second round. At the tap of the gong Papke rushed from his corner and sent his opponent for the count of nine with a right swing to the jaw. Goodale arose with difficulty and hung on to Papke. They wrestled around the ring with Papke landing two light taps to Goodale's jaw. Suddenly Goodale sank to his knees and clutched the ropes. Papke grasped him by the right arm and appeared to be trying to lift him to his feet. Being unsuccessful, Papke motioned to the time-keeper to ring the bell, and a general mix-up between fighters, referee and seconds followed. After about 15 seconds, one of Goodale's handlers threw the sponge into the ring.

## THE SAME IN TONOPAH.

The Oberon gambling house in Reno, employing sixty men, has closed its doors, although doing a big business. It is claimed that the cause for closing was the expiration of the lease on the property, but the general belief is that this is in reality the first step in the fight the gambling element is to make against the anti-gambling law which goes into effect in October. The endeavor being to have the law repealed. It is thought other gambling houses will close, throwing out of employment many more men, and leaving themselves and without occupation a great many hangers-on of the gambling houses.
